HORSE SMART TIPS AND TRICKS.

PRDUCTS THAT WORK

Last month I mentioned I was having some issues with my horse he had sacroiliac pain and stifle lock. As I mentioned the treatment I was recommended was expensive and timely but I can honestly say it worked. The Magnetic rug worked a charm it was very noticeable and obvious. Within a couple of weeks of taking the kohnkes own E-SE supplets with soy meal my horse is no longer locking up. It was like magic one day he was locking up and the next he wasn't his stifle lock had been going on for about four months before and was told by the vet keep working him he will come through it, but he didn't he got worse and then he got sore in the sacro area. The supplements and rug were the difference and I can deffinatly recommend them.

This month I am looking into a product called weight lifter for my 26year old Arab he has been on it a couple of days now and will let you know the results next month.
